

## Hiwi for conducting research in ENG

## Job posting Student Assistant

### Research

- At the Institute for Medical Device Technology of the University of Stuttgart, there is an immediate vacancy for a student assistant to be filled.
- The main task is to assist in conducting research regarding the medical products use in outpatient clinics: this includes:
  - To conduct literature research
  - To conduct documentation of the results
  - To evaluate the literature
  - To determine the usage frequency of specific medical devices in outpatient care units
- Other tasks may arise by arrangement.
- Job info:
  - 30 hours per month, immediate start
  - Bachelor students only
- Please apply until 29.01.24 by sending your CV and earliest starting day to Peiman Shah Nazar:
